SACHIN S

Delivery Data Analyst @Turing | AI Data Specialist | LLM Evaluation
| Dataset Quality | Python | Building AI Applications with RAG &
LangChain

Coimbatore, Tamil Nadu, India

Summary

I'm a Delivery Data Analyst at Turing with experience evaluating and creating high-quality datasets that help improve large language models. My work has focused on assessing model responses, maintaining data quality, and contributing to benchmark datasets for frontier AI research. I enjoy solving complex problems, paying attention to detail, and ensuring AI systems perform reliably across a wide range of tasks. Alongside my professional experience, I'm expanding my skills in AI application development through hands-on projects with Python, LLM APIs, structured outputs, tool calling, Retrieval-Augmented Generation (RAG), and LangChain. My goal is to bridge the gap between AI model evaluation and building production-ready AI applications that solve real-world problems. I'm always excited to connect with professionals who are passionate about AI, machine learning, and AI powered applications. Whether it's discussing LLMs, sharing ideas, or collaborating on innovative AI projects, I'm always eager to learn, build, and contribute.

Experience

Turing

Delivery Data Analyst

July 2024 - Present (2 years 1 month)

Education

Hindusthan College of Engineering and Technology

Computer science engineering , Computer Science · (2021)

Naan Mudhalvan

Bachelor of Engineering - BE, Computer Science
